PROFESSIONAL SUMMARY

Product Manager and certified Scrum Product Owner (PSPO I) with an engineering foundation (M.Sc. Computer Science) and a rare combination of technical fluency and commercial instinct. Built a career across three continents: Africa, Europe, and remote-first environments. Developing a cross-cultural stakeholder intuition that most PMs take years to acquire. At Rhenus, one of Europe's largest logistics groups, she operates at the intersection of complex enterprise systems and real user needs, turning ambiguous business problems into shipped product. Equally comfortable writing SQL queries, facilitating sprint reviews, and presenting roadmaps to senior leadership. Fluent in English and German; ready to own product in any DACH-market organisation that values rigour, speed, and user obsession.

CORE COMPETENCIES

✓ Product Strategy & Roadmapping	✓ Agile / Scrum / Kanban	✓ Backlog Management & Prioritization	✓ Product Owner (PSPO I)
✓ User Story & Requirements Writing	✓ Stakeholder Management	✓ User Acceptance Testing (UAT)	✓ Data-Driven Decision Making

PROFESSIONAL EXPERIENCE

IT Product Manager TMS Air & Ocean | Rhenus Logistics GmbH, Dortmund, Germany Nov 2022 – Present

- Own and evolve a SaaS logistics platform (TMS) serving 3,000+ users across multiple countries, managing the full product lifecycle from discovery through rollout.
- Define, groom, and prioritize product backlog in Jira; increased feature delivery rate by 47% through improved sprint planning and dependency management.
- Translate stakeholder requirements into clear epics, user stories, and acceptance criteria, reducing development cycle time and rework.
- Partner with engineering squads to deliver 80+ product features, balancing technical feasibility with user needs and business objectives.
- Reduced post-release defects by 63% by introducing structured QA processes, automated regression checklists, and pre-release UAT gates.
- Led UAT sessions with 100+ end users and coordinated role-based training programs to drive successful product adoption.
- Optimized user rights management module (IDEALIST), cutting account setup time by 53% and improving IT support efficiency.
- Managed Qlik Sense analytics dashboards to surface product insights and support data-driven decision-making across the organization.
- Provided 3rd-level functional support, resolving critical production issues within SLA targets (95% success rate).
- Facilitated sprint ceremonies (planning, review, retrospective) as Scrum Product Owner; maintained a healthy, prioritized roadmap aligned to strategic goals.

SEO Specialist – Growth & Product Support | StudySmarter GmbH, Munich, Germany (Remote)

Aug 2021 – Oct 2022

- Grew organic traffic by 66% through keyword research, on-page optimization, and technical SEO improvements across 400+ web pages.
- Collaborated with product and engineering teams to implement SEO-driven product changes, contributing to a 32% increase in domain authority.
- Used Google Analytics and Search Console to analyse user behaviour, reducing bounce rate by 28% through data-driven content optimisation.
- Acted as the first point of contact between SEO and content teams, ensuring quality and search-visibility standards across all published content.

Junior Project Manager | Nomek Holdings PTY LTD, Lobatse, Botswana

Aug 2018 – Sep 2019

- Managed cross-functional projects end-to-end (scope, timeline, budget), improving delivery efficiency by 30% through process optimisation.
- Defined business requirements and facilitated alignment between business and technical stakeholders.
- Collaborated with business and technical teams to gather requirements and support process improvements.
- Monitored KPIs and presented performance insights to senior management; led risk management and mitigation planning.
- Organized project meetings, prepared agendas, documented meeting minutes, and followed up on action items.

English Tutor | Self-Employed, Tambov, Russia

Jun 2016 – Jul 2018

- Planned and delivered personalized English language lessons for students of different ages and proficiency levels.
- Assisted learners in improving speaking, listening, reading, and writing skills.
- Developed engaging learning materials and exercises tailored to individual learning needs.
- Fostered a positive and supportive learning environment that encouraged confidence in English communication.
- Utilized online teaching tools and digital resources to facilitate remote learning sessions.

EDUCATION

M.Sc. Computer Science | Paderborn University, Germany

Completed 2024

B.Sc. Applied Computer Science | Tambov State University, Russia

Completed 2018

CERTIFICATIONS

- Professional Scrum Product Owner™ I (PSPO I) – Scrum.org
- Professional Scrum Master™ I (PSM I) – Scrum.org

KEY PROJECTS

Personal Website

- Designed and developed a responsive website from concept to deployment.
- Created user-friendly navigation and optimised website performance.

Ebook Application

- Built an e-book application for learning the English language using HTML, CSS, and JavaScript.

AI in Software Engineering | Master's Thesis – Paderborn University

- Researched adoption patterns of generative AI tools (ChatGPT, Copilot) in professional software engineering teams.
- Conducted mixed-methods analysis (surveys + interviews); findings informed practical guidelines for AI-assisted development.

VR/AR Robotics Application | University Project

- Built a VR/AR application for intuitive robot programming using Unity, C#, and GitLab CI/CD.
